Patio Doors

Indoor and Outdoor Living at Its Finest

Bifold Patio Door
A White 4-panel Pella® Reserve™ — Traditional aluminum-clad wood door with Integral Light Technology® grilles and a Matte Black Virago handle.

LIVE LARGE WITH PELLA

Extend your living space beyond the walls of your home. Whether your project calls for the rich details of wood, clean lines of aluminum, strong fiberglass or low-maintenance vinyl, you can create your desired look with the flexible design of large opening Pella® doors.*

SLIDING

Aluminum-Clad Wood, Aluminum, Fiberglass and Vinyl

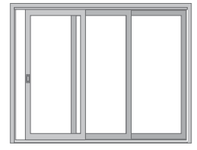

- Two, three or four panels of glass that slide open horizontally
- Sliding doors do not swing open, requiring less space to operate
- Bring in large amounts of fresh air and natural light to create bright and airy spaces

HINGED

Aluminum-Clad Wood, Aluminum, Vinyl

- One or two doors that swing open
- Creates a grand entrance into a backyard or patio area
- French doors add timeless style to any home

MULTI-SLIDE

Aluminum-Clad Wood, Aluminum and Vinyl

- Feature two or more expansive panels of glass that glide open horizontally
- Used to invite the outdoors in and the indoors out with panels that travel to one side or part in the middle
- Panels stack neatly on top of one another and can tuck away out of sight into a wall pocket

BIFOLD

Aluminum-Clad Wood, Aluminum and Vinyl

- Expansive panels of glass that fold like an accordion
- Used to extend your living space and blend your home's indoor and outdoor environments
- Commonly used in between entertainment areas such as a kitchen and patio area

*Please see your Pella sales representative for more information on product performance ratings and their ability to meet local standards.

ALUMINUM-CLAD WOOD PATIO DOORS

Get the beauty and warmth of natural wood, our most customizable designs and exceptional energy efficiency.

MOST CUSTOMIZABLE DESIGN

Personalize your patio doors to match your home with special sizes, integrated blinds and shades, grilles, premium interior and exterior colors and hardware finishes. From traditional and historically authentic to contemporary and modern, we offer products for any style of home.

LONG-LASTING BEAUTY & DURABILITY

Low maintenance aluminum cladding protects the exterior of your strong door. EnduraGuard® wood protection formula helps ensure protection on every wood surface from the effects of moisture, decay and stains from mold and mildew — as well as termite damage.

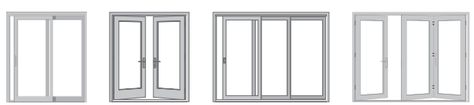

TESTED BEYOND REQUIREMENTS

Our high-quality wood patio doors are designed and tested for enduring durability. Pella tests wood windows and patio doors beyond the industry standard to deliver long-lasting products and performance you can trust.

COVERED FOR A LIFETIME[1]

Pella wood patio doors are backed by the best limited lifetime warranty in the industry for wood patio doors.[2]

Available in these patio door styles:

[1] Limited lifetime is for as long as the original purchaser of the Pella wood product owns and occupies the home into which the Pella wood product is installed.
[2] Based on comparing written limited warranties of leading national wood window and wood patio door brands. See Pella written Limited Warranty for details, including exceptions and limitations, at pella.com/warranty or contact Pella Customer Service at 877-473-5527.

FIBERGLASS PATIO DOORS

Add exceptional strength and durability to your home with fiberglass patio doors.

UNMATCHED STRENGTH AND LASTING DURABILITY[1]

Pella fiberglass is the strongest material for windows and patio doors, engineered for lasting durability. Our fiberglass patio doors are built for long-lasting durability and tested for a lifetime of everyday use.

DESIGNED FOR EXTREMES

Unlike other materials, Pella's exclusive fiberglass won't expand or become brittle, meaning these patio doors resist dents, bends and breaks. Tested from -40ºF to 180ºF, our fiberglass is designed to withstand subzero cold, the most extreme heat and the rigorous performance requirements of a commercial building.[2, 3]

LOW-MAINTENANCE DESIGN

Factory-applied and baked on, these doors feature a long-lasting powder-coat finish which resists chipping, chalking and fading for enduring beauty. The durable material will never rot or corrode, helping keep your sleek patio door beautiful with less maintenance.

BACKED BY ONE OF THE STRONGEST WARRANTIES IN THE BUSINESS.

Pella products are backed by one of the strongest warranties in the industry. See written limited warranty for details, including exceptions and limitations, at pella.com/warranty.

Available in these patio door styles:

[1] Pella's proprietary fiberglass material has displayed superior strength over wood, vinyl, aluminum, wood/plastic composites, and other fiberglass materials used by leading national brands in tensile and 3-point bend tests performed in accordance with ASTM D638 and D790 testing standards.
[2] In testing performed in accordance with ASTM testing standards, Pella's fiberglass has displayed superior performance in strength, ability to withstand extreme heat and cold and resistance to dents and scratches. Special shape windows are made from a fiberglass resin material.
[3] Pella® Impervia® windows and patio doors have a performance class of LC or higher. For information on product ratings see www.pella.com/performance.

Sliding Patio Door
A Black 3-panel Pella® Impervia® fiberglass sliding patio door with a low-profile sill.

VINYL PATIO DOORS

Easy-care and energy-efficient Pella® vinyl patio doors are budget friendly.

LOW-MAINTENANCE DESIGN

Made with Pella's unique vinyl formula, you won't need to paint or refinish your vinyl patio doors. These doors are fade resistant and tested for excellent weathering and durability. Solid and dual-color frame options available to complement your home's style.

EXCELLENT ENERGY EFFICIENCY

Slowing the transfer of heat, multichambered frames help keep your home more comfortable. Pella offers energy-efficient options that will meet or exceed ENERGY STAR® guidelines in all 50 states.* Optional foam insulation further improves energy efficiency.

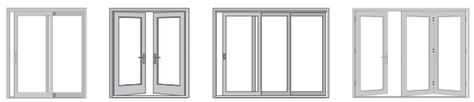

QUALITY THAT LASTS

Vinyl patio doors are high quality and budget friendly. As a competitively priced material, vinyl still offers some of the most desired features and options, like blinds-between-the-glass, privacy and security innovations, and unique grille patterns.

BACKED BY SOME OF THE STRONGEST WARRANTIES IN THE BUSINESS.

Pella products are backed by some of the strongest warranties in the industry. See written limited warranty for details, including exceptions and limitations, at pella.com/warranty.

Available in these patio door styles:

* Some Pella products may not meet ENERGY STAR® guidelines in Canada. For more information, contact your local Pella sales representative or go to energystar.gc.ca.
